

# Use of Zoom for large class teaching: My experience

by

Hiran H E Jayaweera

hiran@phys.cmb.ac.lk

5<sup>th</sup> Training Program by Blended Learning Project of the University of Colombo

# Today's session

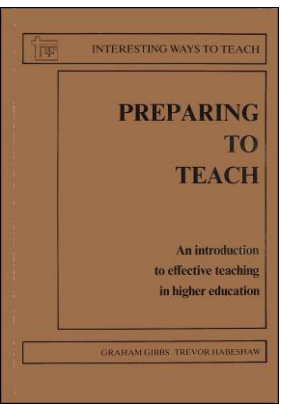

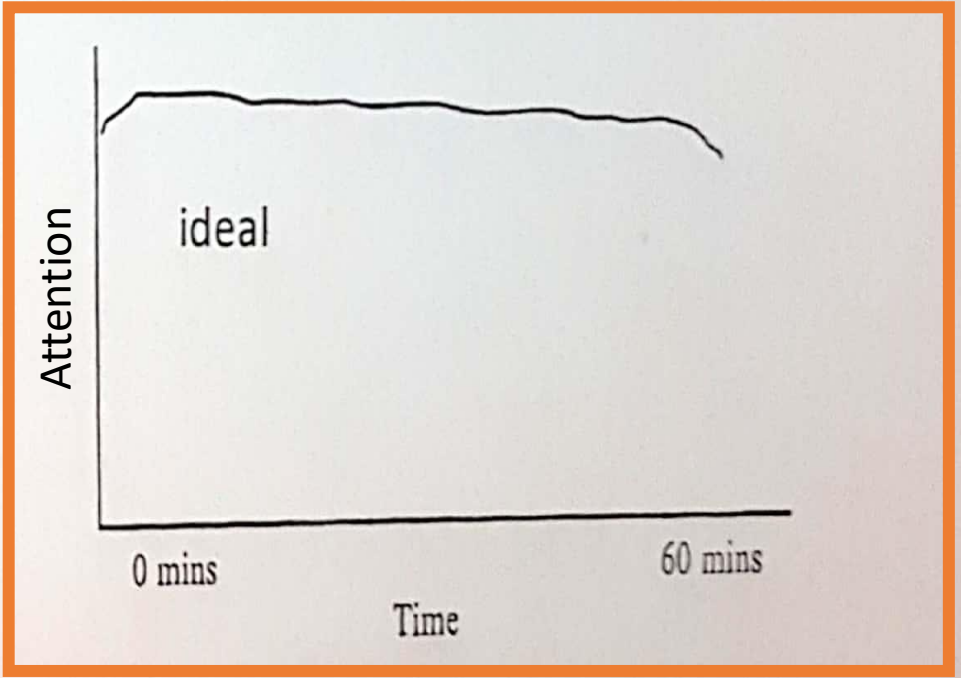

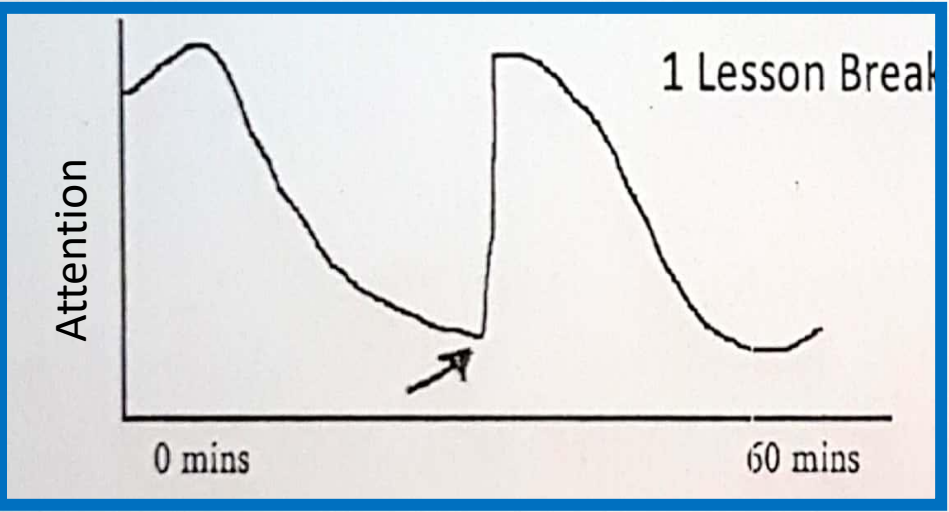

How I managed get students involved in the discussion

How I did collaborative teaching with colleague

Annotation and whiteboard

Gibbs, G. and Habeshaw, T. (2001). *Preparing to teach*. Bristol: Technical and Educational Services.

The screenshot displays a Zoom meeting interface with a shared screen. The screen shows three graphs illustrating attention levels over a 60-minute period. The top graph shows a steady decline in attention. The middle graph shows a dip in attention during a '1 Lesson Break', with an arrow pointing to the start of the break. The right graph, highlighted with an orange border, shows a high and stable attention level labeled 'ideal'. A 'Reactions' menu is open at the bottom right, featuring a 'Raise Hand' button and navigation controls. A red arrow points to the 'Reactions' button in the Zoom toolbar.

Security

## Require that all meetings are secured with one security option

Require that all meetings are secured with one of the following security options: a passcode, Waiting Room, or "Only authenticated users can join meetings". If no security option is enabled, Zoom will secure all meetings with a Waiting Room. [Learn more](#) 

## Waiting Room

When participants join a meeting, place them in a waiting room and require the host to admit them individually. Enabling the waiting room automatically disables the setting for allowing participants to join before host.

## Waiting Room Options

The options you select here apply to meetings hosted by users who turned 'Waiting Room' on.

✓ Everyone will go in the waiting room

[Edit Options](#) [Customize Waiting Room](#)

# Enable non-verbal feedback

## Disable meeting reactions

In Meeting (Basic)

Auto save whiteboard content when sharing is stopped 

In Meeting (Advanced)

Email Notification

Other

### Remote control

During screen sharing, the person who is sharing can allow others to control the shared content

Allow remote controlling user to share clipboard 

### Non-verbal feedback

Allow meeting participants to communicate without interrupting by clicking on icons (yes, no, slow down, speed up). These icons are found in the Reactions menu in the toolbar, and when selected, they display on the participant's video and in the participants list until dismissed. 

### Meeting reactions

Allow meeting participants to communicate without interrupting by reaction with emojis (e.g. clap, heart, laugh). These emojis are found in the Reactions menu in the toolbar, and when selected, they display on the participant's video and in the participants list for 10 seconds. Participants can change their emoji skin tone in Settings.

**MICROCHIP**

**megaAVR**

## Introduction

The ATmega32A is a low power, CMOS 8-bit micro architecture. The ATmega32A is a 40/44-pins device w cutting instructions in a single clock cycle, the de instructions per second (MIPS) per megahertz, a tion versus processing speed.

## Features

- High-performance, Low-power AVR<sup>®</sup> 8-bit Micro
- Advanced RISC Architecture
  - 131 Powerful Instructions – Most Single-clo
  - 32 × 8 General Purpose Working Registers
  - Fully Static Operation
  - Up to 16MIPS Throughput at 16MHz

## Collaborative teaching with colleague

- Make your colleagues co-hosts and provide all privileges
- Distribute some responsibilities like recording, monitoring the chat window, annotate the screen
- Use breakout rooms for supporting individuals
- Use student teachers
