

## **Perfect Mental Health**

Professor W Gunathunga

*Professor in Community Medicine, Faculty of Medicine, University of Colombo, Sri Lanka*

Mind binds the physical body, outside world and memory of a person together and is the nearest constituent of a person to his/her mental health. No person is healthy until he or she is perfect in mental health. If you think you are mentally healthy, ask yourself whether the thoughts that occur in your mind are all what you need and happy to have. If not, you are not
